» Bright colors

» High temperature resistance

» Strong dyeing power

» Easy and safe operation

XCWY Dyes packing detail: 25kg net weight in iron drum, fiber drum, carton box, bags or customized made as per your request.

Green Mosquito Coil Dye Features:

It belongs to a cationic dye, which is a green fluorescent crystal. Its chemical properties are very active. It is easily soluble in water and ethanol. The solution is blue-green color, orange in concentrated nitric acid and orange-brown after dilution. It is a very important chemical raw material. The dye will not change color at high temperature.
