Direct Fast Black VSF

Located in Hebei province, China, XCWY is engaged in producing various kinds of direct black dyes including Direct Fast Black VSF, direct black 19, direct black 38.

These direct black dyes are in different qualities, for example, Direct Fast Black VSF is available in 1000%, 1200%, 1600%, 1800% and so on.

Higher quality will have less consumption during dyeing and the color will be more dark.
