Colour Index No.	27905
CAS No.	5489-77-0
Specification	
Shade	Similar With Standard
Strength	100%
Appearance	Uniform Violet Powder
Moisture %?	1.5
Insoluble Matter %?	0.4
Properties	Very soluble in water and alcohol

Direct Violet 51 Application

Direct violet 51 can be used for dyeing cotton, viscose fiber, wool, silk and nylon and printing of their fabrics. It is mainly used for dyeing and printing viscose fabrics, knitted underwear and cashmere blankets.

It has good leveling and migration properties and has a certain covering power for variegated colors. After dyeing, it must be treated with fixing agent. It can also be used for coloring leather, paper and water-based ink.

We can not only produce direct violet dyes, but also produce rhodamine related product, cationic blue dyes and sulphur black. Welcome to contact with us.
