Acid Black 194 Specification

» Acid Dyes **Name:** Acid black 194

» **Colour Index:** C.I.Acid black 194

» **CAS No.:** 61931-02-0

» **Usage:** Washing Powder Dyestuffs, Wood Dyestuffs, Leather Dyestuffs, Paper Dyestuffs, wool Dyestuffs

Acid Black 194 Basic Information

Basic Information	
Product Name	Acid black 194
Colour Index	C.I. Acid black 194
CAS No.	61931-02-0
Specification	
Shade	Similar With Standard
Strength	140%
Appearance	Uniform Black brown Powder
Moisture %?	1.5
Insoluble Matter %?	0.4
Properties	Very soluble in water and alcohol

Acid Black 194 Performance

» Acid black 194, black brown uniform powder, which is soluble in water and become black solution.

» Molecular formula: C20H12N3NaO7S
» Molecular weight: 461.38

» The solubility in water is 30 g/L at 25? and 70 g/L at 90 90?. It is used for dyeing and printing wool, nylon, silk and so on.

It has good dyeing depth on nylon fabrics and for leather dyeing.
