Black Fountain Pen Dye

XCWY black fountain pen dye is a kind of shinning black crystals acid dyes, which is specially used for dyeing black fountain pen.

Having more than 20 years' experience, XCWY is engaged in producing kinds of chemical dyes in China from its raw material to the finished dyes, including basic dyes, acid dyes, cationic dyes, direct dyes, solvent dyes and sulphur black. With the expansion of our business, we established another factory in Inner Mongolia in 2017, which means we can produce more kinds of dyes for our customers.

These dyes can not only used for fountain pen dye, but also can be used for paper, wood, wool, cotton, soap, cleaning products and so on.

Why Choose Our Black Fountain Pen Dyes?

» Bright colors

» Good solubility

» High fastness, not easily fade

» Less consumption, less production cost
