Solvent Red 111

Cangzhou Xincheng Weiye Chemical Co.,Ltd is engaged in producing various kinds of solvent red dyes since 1995, including solvent red 23, solvent red 24, solvent red 119, solvent red 118, solvent red 111, solvent red 135 and so on.

Especially solvent red 111 can be used for coloring various oils, plastics, waxes and inks. It can also be used as intermediates of dyes and pigments, as well as polystyrene, ABS, SAN, polymethyl methacrylate, polycarbonate, nylon, rigid polyvinyl chloride, and for coloring polyether plastics and PBT.

Solvent Red 111 Specification

» Solvent Dyes **Name:** Transparent red GS

» **CAS No.:** 82-38-2

» **Color Index No.:** 60505

» **EINECS:** 201-638-4

» **Usage:** Masterbatch dyestuff, Coating dyestuff, Printing ink dyestuff, Plastic dyestuff, Ball pen ink dyestuff

Solvent Red 111 Basic Information

Basic Information	
Product Name	Transparent Red GS
Colour Index	Solvent Red 111
Appearance	Red uniform powder
CAS No.	82-38-2
Specification	
Shade	Similar With Standard
PH Value	6.5-7.5
Density(g/cm3)	1.36
Heat Resistance	300

The advantages of solvent red 111

1.Bright colors
The solvent red 111 dyes are bright in shade and tone, complete in chromatogram and high in dyeing power.

2.Good transparency
The solvent red 111 has good dispersion, high concentration, good color transparency and high cost performance, which can improve the transparency and surface gloss of the product.

3.Good heat and light resistance
It has excellent heat and light resistance. Usually used at a low concentration, it can achieve good results and significantly improve production efficiency.

4.Safety and environmental protection
It is made of environmental protection raw materials and by special process. It has the characteristics of environmental protection, pollution-free, non-toxic and odorless, and meets the detection of prohibited substances in European and American regulations.
