Sulphur Yellow Brown 5G

Sulphur yellow brown 5G is insoluble in water. Sodium sulfide or other vat agents are needed to reduce the dyes to soluble cryptochrome.

Sulphur yellow brown 5G has affinity to fibers and dyes them, and then it recovers its insoluble state by oxidation and coloration and is fixed on the fibers.

So Sulphur yellow brown 5G is also a vat dye.
Sulphur yellow brown 5G can be used for dyeing cotton, hemp, viscose and other fibers. The process is simple, the cost is low, it can dye single color, but also color matching. It has good fastness to sunlight and poor fastness to abrasion.

Sulphur Yellow Brown 5G Information

Basic Information	
Product Name	Sulphur Yellow Brown 5G

Colour Index	C.I. sulphur Brown 10
CAS No.	1326-51-8
Specification	
Shade	Similar With Standard
Strength	150%
Appearance	Red Brown powder
Properties	Insoluble in water

Our Sulphur dyes

DYES NAME	C.I.NO
Sulphur Black BR	Sulphur Black 1
Sulphur Dark Blue 3R	Sulphur Blue 5
Sulphur Blue BRN	Sulphur Blue 7
Sulphur Blue BBF	Sulphur Blue 13
Sulphur Blue CV	Sulphur Blue 15
Sulphur Red LGF	Sulphur Red 14
Sulphur Bordeaux B3R	SulphurBordeaux 6
Sulphur Light Yellow GC	Sulphur Yellow 2
Sulphur Light Yellow GR	Sulphur Yellow 2
Sulphur Yellow Brown 5G	Sulphur Brown 10
Sulphur Light Green G	Sulphur Green 14
Sulphur Brill Green GF	Sulphur Green 3
Sulphur Olive Green BBK	Sulphur Olive Green BBK
Sulphur Dark Green 511	Sulphur Dark Green
