Solvent yellow 14 is mainly used for dyeing of leather shoe polish, floor wax, leather coloring, plastic, resin, ink and oil color separation, transparent paint manufacturing.

Solvent Yellow 14 Specification

» Density (g / cm3): 1.03

» Melting point (?) 132

» Sublimation point??? 202

» Light fastness (PS medium) 5-6

Solvent Yellow 14 Basic Information

Basic Information	
Product Name	Solvent yellow R
Colour Index	C.I. solvent yellow 14
CAS No.	842-07-9
Specification	
Shade	Similar With Standard
Appearance	Yellow powder
Moisture %?	0.40
Heat Resistance	260?
Properties	Insoluble in water, soluble in organic solvent

Solvent Yellow 14 Advantage

» High coloring power

» Easy to grind and disperse

» It is not easy to precipitate

» Bright colors

» High gloss

Cangzhou Xincheng Weiye Chemical is specializing in producing solvent dyes for 26 years, including solvent red dyes, solvent blue dyes, solvent yellow dyes, solvent black series.
