Solvent Yellow 114

Cangzhou Xincheng Weiye Chemical is focusing on manufacturing various kinds of solvent dyes for 26 years. Especially our solvent red dyes, solvent yellow dyes and solvent blue dyes are very advantageous.

The appearance of solvent yellow 114 and transparent yellow 3Ge produced by our company is yellow powder and the colorshade is greenish.

Solvent yellow 114 has good heat resistance and sunlight resistance. They are insoluble in water, insoluble in ethanol, soluble in concentrated sulfuric acid and sulfolane when heated.

Solvent Yellow 114 Specification

» Product Name: Transparent Yellow 3GE

» Type: Solvent yellow dyes

» CAS NO.: 75216-45-4/7576-65-0

» Appearance: Uniform Powder

» Light Fastness: 7-8

Solvent Yellow 114 Basic Information

Basic Information	
Product Name	Transparent yellow 3GE
Colour Index	C.I. solvent yellow 114
CAS No.	75216-45-4/7576-65-0
Specification	
Shade	Similar With Standard
Appearance	Yellowpowder
Moisture %?	0.30
Heat Resistance	300?
Properties	Insoluble in water, soluble in organic solvent

Solvent Yellow 114 Appliation

Solvent yellow 114 can be used for coloring plastic products and organic pigments; it can be used for polystyrene, ABS, San, polymethyl ester, polycarbonate, rigid polyvinyl chloride, and can also be used

for coloring polyether plastics and PBT.
