Solvent Yellow 179

Product features: Solvent yellow 179 CAS 80748-21-6 is a highly transparent solvent yellow dyes with greenish shade and high thermal stability, good light resistance and weather resistance, high color strength and bright gloss. Solvent yellow 179 is suitable for dyeing hard plastic plastics.

Scope of application: Solvent yellow 179 yellow 6G dye is recommended for the coloring of plastic polymers such as PS, SB, ABS, SAN, PMMA, PC, PVC-U, PPO, and PET.

Solvent Yellow 179 Specification

» Product Name: Solvent yellow 6G

» Type: Solvent yellow dyes

» CAS NO.: 80748-21-6

» **Appearance:** Uniform Yellow Powder

» **Light Fastness:** 8

Solvent Yellow 179 Basic Information

Basic Information	
Product Name	Yellow 6G
Colour Index	C.I. solvent Yellow 179
CAS No.	80748-21-6
Specification	
Shade	Similar With Standard
Appearance	Yellow powder
Moisture %?	0.20
Heat Resistance	300?/5min
Properties	Insoluble in water, soluble in organic solvent

Cangzhou Xincheng Weiye Chemical Co., Ltd is producing hard rubber dyes with advantages of high thermal stability, high coloring strength, high brightness, bright color, good light fastness and weather fastness.

For example, our solvent red dyes 135, solvent yellow dyes 163/179 all have high heat resistance.
