Solvent Blue 122 Specification

- » Solvent Dyes Name: Transparent Blue R
- » **Colour Index**: C.I.Solvent Blue 122(60744)
- » **CAS No.:** 67905-17-3
- » **Appearance**: Uniform powder.

Solvent Blue 122 Basic Information

Basic Information	
Product Name	Transparent Blue R
Colour Index	C.I. Solvent Blue 122
Colour Index No.	60744
CAS No.	67905-17-3
Specification	
Shade	Similar With Standard
Appearance	Uniform Blue Powder .
Density(g/cm3)	1.451
Melting Point(?)	631
Properties	Insoluble in Water, Soluble in Solvent

Solvent blue 122 characteristics: It is a highly transparent blue solvent dye suitable for coloring

polyester and polyester plastics. It has high color strength, good light resistance and heat resistance. It has excellent light resistance and textile performance in the spinning and dyeing of PET fiber. It is especially recommended for the coloring of PET bottles and films.

Solvent blue 122 advantage:

1. Especially suitable for the coloring of polyester applications and many other engineering plastics
2. Highly transparent colorant with high color strength and excellent fastness properties
3. Good solubility
