Liquid Basic Yellow 103

Kraft paper includes test liner board, cement bag paper, high-strength corrugated paper and brown paperboard.

Kraft paper is a high-strength packaging paper made of softwood kraft pulp with tough texture, high strength and yellowish brown paper surface.

As special used kraft paper dyes, liquid basic yellow 103 is widely used for kraft paper mill and test liner paper mill.

Usually it used with direct red 254, the opperation is more convenient and dyeing effect is good. Therefore, this liquid dyes are more and more popular in paper mill.
