Sulphur black BR 220 Specification

Basic Information	
Product Name	Sulphur black dyes
Colour Index	C.I. sulphur black 1
Appearance	Shinning black crystals
CAS No.	1326-82-5
Specification	
Shade	Similar With Standard
Strength	220%
Insoluble Matter %	?1.0
Moisture %	?6.0
Dissociative sulphur content %	?1.0
Properties	Insoluble in water

Sulphur black BR 220 Application Field

1. Used for dyeing and winding dyeing of cotton, jute, viscose and polyvinyl alcohol;
2. Denim fabric (black is mostly made of sulfur black dyed warp yarn and white yarn);
3. Compared with direct dyes and reactive dyes, sulphur black has better dye uptake and levelness, good blackness and good washing fastness
4. It is suitable for dip dyeing, roll dyeing and pad dyeing, and can also be used for the dyeing of leather and original viscous fiber.
