

Solvent Black 28

Our [solvent black 28](#) dye is a transparent black metal complex dye with high glossiness, strong coloring power, good light resistance and temperature resistance. It has good solubility in ketone solvents and is almost insoluble in water, and has good durability in industrial coatings.

Solvent black 28 application

solvent black dyes 28 is recommended for coloring products such as packaging printing ink, ballpoint pen ink, flexographic/gravure ink, digital inkjet, solvent based wood paint, transparent coatings, etc.

Name: Metal Complex [Solvent Black Dyes](#)

Index number: Solvent black 28

CAS number: 12237-23-9

Chemical structure: 1:2 chromium complex

Color shade: reddish

Covering power/transparency: transparent

Light resistance: Level 6

Temperature resistance: 255 ?

PH value: 5.0 ± 10%

Packaging specification: 25K

Application field: Ink, coating, marker

Solvent black 28 features:

Strong coloring power, good rheological properties, good temperature resistance, easily soluble in ketones, insoluble in water
