Pigment Red 254 Paste

The water based pigment Red 254 paste produced by Cangzhou Xincheng Weiye Chemical is specifically suitable for color matching of latex paint inner and outer walls, as well as children's acrylic paint. It has advantages of high pigment content, strong coloring power and good color spreading ability.

Pigment Red 254 Paste Application

Pigment red 254 paste can be widely used for coloring in industries such as plastics, coatings and printing inks. It is recommended for various solvent based coatings and water-based coatings that require lead-free formulations, such as automotive coatings, architectural coatings, coil coatings, industrial coatings, powder coatings, etc. Almost all polymers and masterbatches such as PVC, PVC, PP, PS, and polyolefin are also recommended for printing pastes, various solvent based inks, and water-based inks UV ink and so on.

APPLICATION DEMONSTRATION

PAPER

CONCRETE PAVING

RUBBER AND PLASTICS

ASPHALT

COSMETICS, FOOD AND DRUGS

CEMENT BUILDING MATERIALS

Red 254 Pigment Paste **Specification**

Product name: Pigment Red 254 Paste

Pigment solid: 45%

C.I. No.: 56110

Color Index: Pigment Red 254

CAS NO.: 84632-65-5

EINECS NO.: 402-400-4

PH Value: 6-8

Heat resistance: 200?

Light fastness: 8

Our Pigment Paste List

Product Name	Full Shade	Tinting Color	C.I.No	Pigment Content%	Solid Content%	PH Value	Viscosity S(T4)	Acid Resistance	Alkali Resistance	Light Resistance
Yellow CA212			P.Y.12	40	45–50	7–9	15–60	5	5	4
Yellow CA214			P.Y.14	40	45–50	7–9	15–60	4	5	6
Yellow CA283			P.Y.83	40	46–50	7–9	15–60	5	5	6
